

... And those who earnestly seek me do find me. Riches and esteem are with me. Enduring wealth and righteousness. My fruit is better than gold and find gold, And my increase than choice silver.

Little Gems Instructions

LITTLE GEMS

Story and Character Instructions

The Little Gems stories coincide with the Torah portion and are geared toward 5-8 year olds (Katan A). The stories may be read aloud without any visual aid, or you may use the Little Gems story characters that we have provided. If you choose to use the characters, we recommend reading the story before presenting it to the children, so you know when the characters are needed. There are several ways the characters can be used and we will list those ways below.

There are 2 sets of templates. One is in color and one is in black and white. Use whichever one works best for your needs and the materials available to you.

OPTION 1) Colored characters can be printed on card stock and laminated. They can be mounted in the following ways:

- Attach hook side of hook and loop tape to the back and use them with a felt board.
- Make stands for them to stand up on a table.
- Attach magnets to the back for use with a magnetic board.

OPTION 2) Colored characters can be printed on regular iron-on transfer paper and then ironed (printed side down) onto white felt. Read the package and it will indicate if it is for ink jet printers, crayons and markers. After printing, the characters can then be ironed on felt and cut out. Characters need to be ironed face up with a protector sheet covering the ink. These characters can then be used on a felt board.

OPTION 3) Black and white characters can be printed on white card stock and used in the following ways:

- They can be colored and laminated, then mounted as outlined under Option 1.
- Print the black and white characters on iron-on transfer paper that can be colored after printing. Follow the instructions in Option 2.
