Parsha Pearls is a comprehensive resource that allows for complete customization by the parent. We understand that if you were to strive to accomplish all aspects of each lesson in one day it would be unrealistic and also overload for the child. It is our intention that this be used 'a la carte' so that it suits your specific needs. Our site caters to printing only the pieces you choose.

This page will provide quick links to get to the portion of the document for which you are looking. When you hover over the title a finger will appear. Click on it and you will be taken directly to that page.

If you are new to Parsha Pearls, we have created an [Introduction](#) document outlining how to use our lessons, as well as a [Scriptural Inspiration](#) document, which explains our titles and the Scriptural inspiration for them. We pray that Parsha Pearls blesses your home and that your children will grow to love the Word and to never depart from keeping Torah. As always, feel free to email us at [parshapearls@mtoi.org](mailto:parshapearls@mtoi.org) if you have any questions.

## LITTLE GEMS STORY

### Parent/Teacher Preparation:

Please see the [Instructions for the Little Gems Story](#) on the YMTOI website. This will help you to understand how to prepare for the story.

### Tahor & Tamei

Shalom children! Today we are going to be talking about food! To be exact, we are going to find out what animals Yahweh allows His people to eat and what animals He does NOT. The animals we can eat are called clean animals, and the animals we cannot eat are called unclean animals.

Yahweh made some land animals specifically for us to eat, and some other ones that had different purposes. He instructed Mosheh and Aharon to tell the people how to know which land animals were fine to eat. He said, "Tell them that if an animal's foot, called a hoof, is separated in two like this (**place split hoof on board**), and that animal also eats grass and then spits it out and eats it again, then those land animals you can eat." (**Place cow chewing cud on board.**) Wait, what? That sounds really gross. Alright, so let me explain. Some animals have more than one tummy inside, and Yahweh made them that way so their food would get very well chewed. This is called chewing the cud.

Now, the clean animals that were for eating had to be just as described, with both a split hoof and chewing the cud. (**Point to split hoof and cow chewing cud.**) To make sure that we recognize at least some of the clean animals, He named some as examples. They probably saw a lot of camels around there (**place camels on board**), but they were NOT to eat them. They could use them for other things. See, camels chew the cud, but they don't have a split hoof, so don't get confused. (**Place unsplit hoof on board.**) In fact, those cute little bunnies you see hopping about (**place rabbit on board**), are NOT to be eaten, either. They chew their cud but don't have split hooves. In fact, they don't have hooves at all.

Now let's look at the pig (**place pig on board**). If you look at their feet, they have split hooves. And they like to eat a lot, but they eat it only once and keep on going. They don't chew the cud, but they seem to eat just about everything else. So even though those little piggies like to eat everything, don't you go eating them. The Yisra'elites knew they could eat some land animals, like sheep, goats and cows (**place clean animals on board**), because Yahweh had said they were good for sacrifices and for the priest to eat.

Now, let's move on to the water animals. Yahweh made a lot of fish and other aquatic creatures. In fact, they probably got to see some of them as they crossed the Sea of Reeds. Yahweh knew that they would probably want to go fishing in the rivers and the seas. He said, "Now, I know there are a lot of swimming creatures in the water, but make sure you take a good look at what you catch and only keep the ones that have both fins and scales on them. (**Place clean fish on board.**) Again, don't look for only one of those things; make sure the fish has both. No catfish, octopus or crab. (**Place unclean water creatures on board.**) They have their purpose, and it is not for feeding you."

Just as you can see water animals of all colors, shapes, and sizes, the sky is filled with flying creatures of every color, shape, and size. But they are the same as the water animals; they are NOT all for you to eat. Yahweh didn't really say how to tell one type of bird from another the way He did with the water animals and the land animals, but He didn't leave us to guess either. Instead, He gave us a long list of the birds we could NOT eat.

Now, I am not going to go through that whole list, but I will name some you are familiar with. He said not to eat any of the owls (**place owl on board**), and boy, there are a lot of different kinds of owl! He said we couldn't eat eagles, ravens, ostriches, or seagulls. (**Place unclean birds on board.**) He also said NOT to eat bats (**place bat on board**), so He covered animals that flew even if they were not birds. Can you guess which creature was NOT on the list of unclean animals that were forbidden? I will give you a hint. It's a bird. And it can be made into nuggets. (**Place chicken on board.**) Did you think of a chicken? That's right! Chicken was a bird that we COULD eat. Yay, I love chicken nuggets! I am glad we can still enjoy them. Another clean bird we may eat is something we eat on Thanksgiving. Can you tell me what that is children? (**Wait for children to respond.**) Yes, you got it! (**Place turkey on board.**)

Now, you know that a while back, we read about the plagues in Mitsrayim. Do you remember that there was a certain flying creature that covered all the plants and ate them all up? Do you remember what it was? (**Place locust on board.**) They are insects called locusts, and who can guess whether we can eat them or not? (**Allow children to respond, then say...**) I would not want to eat locusts either, but guess what? Yahweh said we could eat locusts, and also crickets and grasshoppers. (**Place additional insects on board.**) But we can't eat crocodiles, tortoises, or lizards. (**Place unclean reptiles on board.**) I am glad about that, because I don't think they would taste very good anyway.

There is a lot written in the Scripture about animals that should not be eaten and those that we can eat. Your parents can teach you more about that. I just think Yahweh is so loving to teach us what is food for us and what is not. (**Place care emoji on board.**)

Besides what animals we can eat and cannot eat, the Scripture tells us that if an animal that was dead touched certain things like pots or pans or drinking cups, those things were unclean and the person who touched them was unclean. (**Place pot with dead mouse on board.**) They didn't stay that way forever, only until that evening. Then they could go be with their families. If we obey what Yahweh tells us to do, then He will be happy with us and we shall be blessed. I don't know about you but I want Yahweh to be happy with me, don't you?

Well children, we have come to the end of our story for today. We will see you next week for another exciting Little Gems story!

## STORING UP TREASURE IN MY HEART

The Katan Aleph memory verse for this Torah portion is Leviticus 11:44a. If they have not already done so, begin to help them to memorize the verse. Be creative and try acting it out, or putting it to music.

Leviticus  
11:44a

For I am Yahweh your Elohim,  
and you shall set yourselves  
apart. And you shall be set-  
apart, for I am set-apart.

MEMORY VERSE

# SEEKING TREASURE

Circle the correct choices.

1. Although this animal chews the cud but does not have a split hoof, it is unclean. (11:4)

2. Although this animal does have a split hoof but does not chew the cud, it is unclean. (11:7)

3. Circle the clean water creature that we may eat. (11:9)

4. Circle the clean bird that we may eat. (11:13-19)

5. An insect that can leap is clean. Circle the insects below that do this. (11:22)

### Leviticus 11 Song

When we say that food is kosher  
Do you know what we mean?  
We may eat only certain animals  
That are tahor, which means clean

B'nei Yisra'el all gathered to learn  
In the parsha of Shemini  
That we must eat only Kosher food  
So to Yahweh, holy we can be

All of the animals which we may eat  
Must have split hooves on their feet  
And they must chew their food over again  
We know the animal is Kosher, then

Mosheh taught us in great detail  
That Kosher fish must have fins and scales  
Most of the bugs or creatures that crawl  
We may never eat at all!

*Kosher - fit or proper according to Torah*

# SWEET TASTE OF TORAH

This snack relates to this week's parsha. Please take these as suggestions and make necessary changes based on your individual dietary needs.

## Air, Land and Sea Animals

Leviticus 11

### Ingredients:

- Goldfish
- Animal crackers
- Bunny crackers
- Kosher gummies (shaped like birds, butterflies, water creatures, etc.)

### Instructions:

To represent some of the animals discussed in this parsha that are clean (tahor) and unclean (tamei), lay out animal shaped crackers and gummies. As an option, have children separate the clean from the unclean animals and discuss what makes them so. Make sure to express to the children that any unclean shaped animal can only be eaten if they are clean (kosher) crackers and gummies.
