

SWEET TASTE OF TORAH

This snack relates to this week's parsha. Please take these as suggestions and make necessary changes based on your individual dietary needs.

Air, Land and Sea Animals

Leviticus 11

Ingredients:

- Goldfish
- Animal crackers
- Bunny crackers
- Kosher gummies (shaped like birds, butterflies, water creatures, etc.)

Instructions:

To represent some of the animals discussed in this parsha that are clean (tahor) and unclean (tamei), lay out animal shaped crackers and gummies. As an option, have children separate the clean from the unclean animals and discuss what makes them so. Make sure to express to the children that any unclean shaped animal can only be eaten if they are clean (kosher) crackers and gummies.
