## Snake

Exodus 4:2-4

### Instructions for the Craft:

- Start by making the snake's head. Take one end of the pipe cleaner and bend it 2 times about an inch in length (P1) to form an oval shape without any empty spaces. (P2)
- Start adding beads of different colors. String them along by inserting them through the tail end of the snake. You can create a pattern or just go random. (P3)
- Keep adding beads until about half an inch. Then bend the pipe cleaner to close off the tail. (P4)
- Hot glue 2 small googly eyes onto the head. (P5)
- If you choose to, snip a piece of red felt - cut into a 'v' and glue under the snake's head - approx. 3/4" X 1/4". (P6)
